SEED GROWERS
PHILADELPHIA

Terms of Sale

PHILADELPHIA, January, 1919.

Prices and Conditions of Sale— All invoices for purchases after this date will be charged at the prices quoted herein, unless **special offers** are made by letter or telegram and **referred** to in the order. Not less than ten pounds of one variety will be invoiced at the rates per hundred pounds.

The prices quoted are those ruling at this date. We expect to adhere to them through the spring, except where important changes compel us to advance or reduce our prices, when we shall be governed by the market. Ten pounds and more will be supplied at the rates per hundred pounds; half pounds at pound rates; but smaller quantities will be charged at a higher rate.

No Charge for Packing or Cartage.—Bags and boxes are charged at cost. After delivering to forwarders in good order (as shown by Bill of Lading) our responsibility ceases.

Insurance will be effected only when so directed.

Sealed Packages.—We make no charge for sealing pounds, but at the low bulk prices quoted we shall charge for putting up in smaller sealed packages, when so ordered, as follows:

In Ounces.—\$2.00 per 100 ounces; \$6.00 per 1000 ounces.

In Quarter Pounds.—\$4.00 per 100 quarter pounds; \$12.00 per 1000 quarter pounds.

In Half Pounds.—\$5.00 per 100 half pounds; \$15.00 per 1000 half pounds.

We do not Commission Seeds.—In response to hundreds of inquiries each year, we would state that we positively decline to send out any Seeds on Commission. Dealers handling seeds in packets will be supplied on liberal terms, and by ordering judiciously, those left over can be destroyed, and the business yet be more profitable and satisfactory than the handling of commission seeds.

Credit— To regular customers and well-known houses of established credit. The limit of time for payment of invoices for purchases from this Catalog is 60 days. All customers whose remittances have not been received 90 days after the dates of invoices will be drawn upon with sight drafts unless credit arrangements were made by agreement.

Cash Discount— Grass and Clover Seeds, Onion Sets, and Seed Potatoes, Net Cash. All other purchases 2 per cent. within 10 days from date of invoice.

Discounts TO THE TRADE From our Retail Prices

In our Retail Catalog—BURPEE'S NEW ANNUAL FOR 1919—are many varieties of seed in packets for which frequently other dealers receive retail orders. We supply

All Seeds in Packets at	50 Per Cent. Discount	} from retail prices
500 packets or more at	60 Per Cent. Discount	
Vegetable Seeds by the Ounce, 40 Per Cent. Discount		

Excepting the new Early-Flowering Spencer Sweet Pea Novelties, which are net as quoted.

Burpee Collections and "Ready-Made" Gardens

are quick and profitable sellers. See folder in this catalog for information and discounts on all collections.

At the above liberal rates of discount the goods travel at expense of purchaser, and when sent by parcel post the cost of postage will be added to the invoice.

Burpee Quality Seeds

United States Administration License No. G 20025

The steady increase from year to year of the Burpee business is due not only to a constantly widening circle of planters who have every confidence in Burpee Seeds, but also to the fact that all progressive Seed Dealers recognize that it is best to handle seeds of only the best quality.

Burpee's Red List for 1919 is reduced to a strictly business catalog. We have not attempted to give more than a line of description on such varieties as need it, and we suggest that if you are in any way unfamiliar with the varieties listed you consult BURPEE'S ANNUAL FOR 1919, our Retail Catalog, which contains full descriptive detail information as to varieties.

Our entire effort is devoted to production and distributing seeds and seeds of only the best quality.

We will be pleased to have your order for seeds and we assure you that we can serve you well. As of all other merchandise, the prices of seeds are governed by the cost of production and the law of supply and demand. This law particularly affects such crops as are short, and prices on these, of course, have advanced.

While Burpee Seeds cost more to produce than do seeds of ordinary quality, the prices have not been advanced to more than is usually charged for Pedigree Seeds. With the return of peace the demand is bound to be very heavy, and early orders will, of course, have preference.

We will be glad to quote special prices on large quantities at any time. Your inquiries will have prompt and careful attention.

W. ATLEE BURPEE Co.

Burpee's New Early- or Winter-Flowering Spencer Sweet Peas

Realizing the future for, and importance of, this new class for winter flowering under glass, also for outdoor blooming during the winter months, in all frostless localities, we began crossing the Summer-flowering Spencers with the Burpee early or Winter-flowering Grandifloras in the summer of 1909.

From sowings made under glass in August, they may be flowered in time for Thanksgiving. September sowings will produce the finest of flowers by Christmas. If grown in the open, they flower several weeks ahead of the Standard or Summer-flowering Spencers, and, with proper treatment, continue to bloom quite as long as that type.

Sown in Florida, California, and other Southern States toward the end of September, they will bloom from Christmas until April or May. Moreover, they are just the type of Sweet Pea for Japan, Australia, New Zealand, and similar climates, where they bloom and flourish during the cool months of winter and early spring, and until the weather becomes too intensely hot.

Burpee's Sweet Peas

Have during the past few years been awarded Seven Silver Cups, Six Gold Medals, besides innumerable Certificates for new varieties, thus clearly demonstrating the great superiority of our stocks. Novelties for 1919 marked with ★.

- 3338 Burpee's Early Blue-Bird** This is a charming shade of blue. Somewhat similar to *Wedgwood*, but more of a true self, especially as the flower ages. Whether grown under glass or when flowered in the open, it is always greatly admired. **Lb. \$8.00.**
- 3340 ★Burpee's Early Blue Jacket** This novelty will certainly become popular with all Sweet Pea lovers who prefer the dark shades. It is a rich dark navy-blue self. Extremely free-flowering and usually produced in fours. **Pkt. 15 cts.; \$8.50 per 100 pkts.**
- 3342 Burpee's Early Canary Bird** This is a splendid, rich, deep cream or primrose colored self. The flowers are of great size, beautifully waved, and usually borne three or four on a stem. **Lb. \$10.00.**
- 3344 ★Burpee's Early Cherry Ripe** A particularly bright and taking color and quite new in this section. It might be described as a glowing cherry or salmon-cerise self. Awarded Certificate of Merit at the International Spring Show, New York, March 20, 1918. **Pkt. 15 cts.; \$8.50 per 100 pkts.**
- 3346 ★Burpee's Early Daintiness** A strong grower, with flowers of largest size and usually produced in fours. Color pure white edged rose. Similar to Summer-flowering Dainty. **Lb. \$8.00.**
- 3348 Burpee's Early Daybreak** This is a lovely cream-pink self. The flowers are much frilled or waved, of largest size, borne freely in threes and fours on very long stiff stems. The color is a pleasing shade of rich rose-pink on cream ground, the color becoming deeper toward the edge of standard and wings. The entire flower is lightly suffused with salmon. **Lb. \$12.50.**
- 3350 Burpee's Early Empress** (See illustration in color, page 102, Burpee's Annual.) A most distinct and glorious shade of bright deep rose-pink. A solid color throughout. The immense flowers are freely produced in threes and fours on very long, strong stems. Extremely free flowering. **Lb. \$12.50.**
- 3351 Burpee's Early Enchantress** A bright rose-pink, becoming deeper toward the edges of standard and wings, gradually softening in tone toward the center of the flower. **Lb. \$8.00.**
- 3352 Burpee's Early Exquisite** The ground color is a soft shade of primrose, the edge of the standard and wings being beautifully "picoteed" with deep rose-pink. A strong, robust grower, the large flowers are freely borne on long stiff stems, usually in threes and fours. **Lb. \$8.00.**
- 3357 ★Burpee's Early Fantasy** Striped and marbled with rich rose-pink on a creamy white ground. Exceedingly bright and makes a telling bunch when cut. Extremely free and a continuous bloomer, the flowers usually borne in threes and fours on long stems. **Pkt. 15 cts.; \$8.50 per 100 pkts.**
- 3358 ★Burpee's Early Favorite** Color similar to the old *Apple Blossom*. Rosy-pink standard and blush wings. Excellent for bunching. **Pkt. 15 cts.; oz. \$2.00.**
- 3360 Fordhook Pink** A distinct shade of pink suffused with lavender throughout. Under artificial light it is particularly pleasing. **Lb. \$6.00.**
- 3361 Fordhook Pink and White** This is similar to the old *Blanche Ferry*, having a bright, rosy-pink standard with creamy white wings, lightly suffused rose. **Lb. \$6.00.**
- 3362 Fordhook Rose** A charming shade of rosy carmine. The flowers are of largest size and usually borne in threes and fours on long stiff stems. **Lb. \$6.00.**
- 3364 ★Burpee's Early Gipsy Maid** Color light bright rose-pink, suffused salmon. The deep lemon keel tends to soften and lighten up the flower. The flowers are of great size, usually borne in fours. **Pkt. 15 cts.; \$8.50 per 100 pkts.**
- 3367 ★Burpee's Early Glorious** This magnificent novelty may be briefly described as an early-flowering *Royal Purple*, the color being identical to the popular summer-flowering variety of that name. The color is a charming shade of warm rosy-purple, while the flowers are of great size and invariably produced in threes and fours on very long stems. **Pkt. 15 cts.; \$12.00 per 100 pkts.**

Early-Flowering Spencers

3374 Burpee's Early King (See spray in color, page 102, Burpee's Annual.) The finest early-flowering crimson. In color similar to King Edward Spencer, having all the characteristics of that fine variety. A glowing, rich, bright crimson. The flowers are of great size, perfect form, averaging fully two inches in diameter, and are produced freely in threes and fours on strong stems of great length. **Lb. \$8.00.**

3375 Burpee's Early Lavender King This is a rich, true, deep lavender throughout. Similar in color to the summer-flowering varieties, Burpee's *Orchid* and *R. F. Felton*. **Lb. \$8.00.**

3376 Burpee's Early Loveliness For dainty and delicate color effect, especially when bunched, this stands head and shoulders above any variety we have seen. The color is white, the entire flower being suffused soft pink until it reaches the edges, which are distinctly picoteed with rose-pink. A flower of immense size and great substance, beautifully waved and usually produced three or four on the longest stout stems. **Lb. \$8.00.**

3378 *Burpee's Early Lustre A most distinct and pleasing shade of deep rose-pink with a lustrous, coppery-like sheen overlying or suffusing the standard. Flowers of great size, and freely produced in fours. A magnificent variety for bunching. **Lb. \$12.50.**

3379 *Burpee's Early Majestic The standard is a pleasing shade of purplish-maroon, the wings rosy-purple. The immense flowers are invariably borne on long stiff stems in threes or fours. **Pkt. 15 cts.; \$8.50 per 100 pkts.**

3380 Burpee's Early Mauve Beauty Color a pleasing shade of rosy mauve. The flowers are of immense size, often measuring two and one-half inches in diameter, yet exquisitely waved and of best Spencer form. A strong, vigorous grower and very free flowering. Charming under artificial light. **Lb. \$6.00.**

3381 *Burpee's Early Orange Beauty Similar in color to *Helen Lewis*, therefore a glowing orange-scarlet with softer colored wings. Extremely free and early blooming, valuable alike for culture under glass or in the open, as it withstands the sun and weather well. **Pkt. 15 cts.; \$8.50 per 100 pkts.**

3383 Burpee's Early Pink Beauty (See illustration in color, natural size, on color plate, page 102, Burpee's Annual.) The color is soft rose-pink on white ground, richer toward the edges, gradually softening in color as it reaches the center of standard and wings. **Lb. \$8.00.**

3384 Burpee's Primrose Beauty A pleasing shade of deep primrose, flushed with rose. The flowers are of great size. **Lb. \$8.00.**

3387 Burpee's Early Rosebud Color bright shining rose with a suspicion of bronzy suffusion throughout the standard. **Pkt. 15 cts.; \$8.50 per 100 pkts.**

3388 Burpee's Rosy Morn A magnificent flower of great size and substance. Flowers grown under ordinary field culture have measured fully two inches in diameter. The color is a pleasing shade of rose with crimson-scarlet standard, while the immense flowers are usually borne in threes or fours on stiff, long stems. **Lb. \$6.00.**

3390 Burpee's Early Sankey A truly magnificent white. Black seeded. **Lb. \$8.00.**

3391^a Burpee's Early Princess (See color illustration, page 102, Burpee's Annual.) Color, a lovely shade of soft lavender suffused mauve. A color in great demand. The flowers are most attractively fluted or waved. **Lb. \$8.00.**

3392 Burpee's Improved Snowstorm The result of a cross made between *King White* and *Yarrowa*, it embodies the best qualities of those two varieties and easily eclipses all early-flowering white Sweet Peas to date. The flowers are of *Yarrowa* size, but finer form, as the standard does not reflex but is magnificently bold, though charmingly waved. A vigorous grower, the immense flowers are invariably borne in fours on very long stems. This is the last word in White Sweet Peas. **Lb. \$15.00.**

3393 *Burpee's Early Splendor A magnificent new deep rose self. The rich rose-crimson color is accentuated by the distinct white blotch at the base of standard and wings. Similar in color to the Summer-flowering *Rosabelle*. **Lb. \$12.50.**

3394 Burpee's Early Sunburst (See color illustration, page 102, Burpee's Annual.) The color is a pleasing shade of rich pink, becoming lighter toward the base of standard and wings. The entire flower is suffused with soft amber and salmon, there being a distinct lemon blotch at the base of the standard. **Lb. \$8.00.**

3395 Burpee's Early Sweet Briar Color a lovely shade of pink throughout, but with a soft salmon or amber suffusion, this being more accentuated in the younger flowers and buds. Somewhat similar in color to the summer-flowering *Elfrida Pearson*. **Lb. \$8.00.**

3398 Yarrowa The flowers average two and one-half inches in diameter; many are duplex or double. The color is a bright rose-pink with a clear, creamy base. **Lb. \$6.00.**

3399 Burpee's Early Zephyr This is a delightful shade of pale blue or lavender. It might be briefly described as a silvery blue self. **Lb. \$8.00.**

3400 Burpee's Sunrise Mixture of Early-Flowering Spencers is probably the only mixture of Early-flowering Spencers offered at this time. It is a carefully composed blend of the finest of the many named varieties of Early-flowering Spencers. The seed has all been grown on our own Floradale Farm and is the best that is possible to grow. **Lb. \$5.25.**

Growing Early- or Winter-Flowering Sweet Peas in the Open

The winter-flowering varieties offered, in addition to their usefulness for growing under glass, will be found of great value for outdoor culture. In fact, in localities where on account of extreme heat the summer-flowering Sweet Peas did not succeed, or at best gave only a few flowers ere the vines died off, this new type can be grown to perfection.

Choice Strains of Tall Sweet Peas

Including all the desirable varieties—both new and old
